District Families and Education Supporters:

Join me in saving our quality K-12 District 16 school system!

With the generous support of donors, 12 teaching positions in District 16 were saved this academic year. Through the generosity of many last year, the CFSD Foundation's \$500,000 grant provided our children this school year with:

5 additional teachers at elementary school—Manzanita, Sunrise, Ventana Vista and Canyon View.

2 more teachers at both Orange Grove and Esperero Middle Schools.

5 additional teachers at our high school allowing for more sections of English, social studies and science to be offered.

Imagine the impact on our students with 12+ fewer teaching positions! Generous donations from people like you helped keep class sizes smaller at each school site as well as the integrity of academic programs!

A GREAT public education is NOT free!

With further proposed state budget cuts to education on the horizon, saving teaching positions continues to be a challenge! But you can be part of the solution in regards to our children's education right here in District 16.

We ask you to take the **CFSD Challenge** and make your gift to the district to ensure funds are in-place for next school year to keep excellence in the classrooms. In today's challenging economy, our schools need your support more than ever. ***Investing in your children's education gives you the best and most rewarding return on your dollars.***

Please make your donation or pledge a monthly contribution, by check, credit card or online at www.cfsdfoundation.org.

Thank you for your support.

Sincerely,

A handwritten signature in black ink that reads "Nancy A. McClure".

Nancy A. McClure
2009-2010 President
